

HOW CAN I FIND THE RIGHT COLLEGE PROGRAM FOR ME? TESTIMONIALS FROM AN OVERWHELMED FAMILY

Macayla Bell & Parents

Debbie Bell (Mom)

"The process of finding the right college is daunting on your own. All children are different- some want big, some want small, some want to be far away, and some close to home. Renee's consulting work helped us to refine the process and deal with realistic expectations both athletically and academically. She was able to communicate with [my daughter] Macayla to help her find her "right fit". She had meetings with her and asked important questions like: location, size of school, type of degree, etc. She got to know Macayla not only as a soccer player, but as an individual, her personality and character. She does a great job of filtering out those schools that didn't fit with our daughter, based on academics, athletic abilities and personal preferences.

Her process also allowed us to monitor a coach's level of interest and make quick contact. But most importantly, Renee's

recruiting process made our daughter explore a number of coaches and amazing colleges that we may have never otherwise heard about. Two years ago, we had never heard of her [now] college, but we truly could not imagine a better fit or experience for our daughter!

We were very impressed with Renee's professionalism, her attitude, her enthusiasm and her willingness to help our daughter achieve her dream. She is an honest Christian person, a former college coach, and a mentor. She can give you tools, information and insight from a college coach perspective and is extremely helpful in the recruiting process from the beginning to the end.

Renee gave our daughter 100% of her recruiting commitment. She is always just a phone call or text away from any questions you have regarding the recruiting process. We want to thank Renee, as Macayla was able to participate in National Signing Day at her high school, which is something that she was looking forward to her whole life."

Macayla Bell (Student-Athlete)

"If I were to meet a high-school athlete or parent who is starting the recruiting process, I would tell them to hire Coach Renee Lopez as a consultant or to have her come speak at their clubs, high school, organizations, etc. I wouldn't have imagined any better experience or process. Renee helped not only in the recruiting process, but she helped me become a stronger person. She has a lot of experience with the whole process and coaching.

Renee makes sure she knows what you want and she is going to help you find it. She has

a very strong head on her shoulders and she will tell you the truth.

She will help you as the athlete, or your child succeed in finding the "perfect fit", no doubt. I have been very fortunate to not only have parents and coaches that support me, but I'm extremely grateful to Coach Renee for her friendship, guidance and assistance with the recruiting process."

Rick Bell (Dad)

"We had absolutely no experience regarding the recruiting process, nor did we know where to start. Having Renee work with us during this very important time of our daughter's athletic career was a blessing. She gave us so much helpful information and tools so that Macayla was able to select the perfect college, team, and coach for her.

If you want to experience a great recruiting process, this is the lady you need to consult with! She has many years of experience with recruiting and coaching. She is well known and knows a lot about the recruiting process and what it takes to land you at the college you wish to go to! There is no beating around the bush with her, she is straight forward with you on everything that you discuss with her. She works very hard at getting an athlete at the right program for them."

If you are interested in having Renee help you and your family in understanding the recruiting process, please email her regarding her consulting services at info@lookingforafullride.com, or visit www.lookingforafullride.com.
